

Post-Warranty Alteration Form

5/09/2011

FBPCO #: _____ Building Identification: _____
Warranty #: _____ Expiration Date: _____
Contractor License #: _____ Contractor Name: _____

Thank you for your notice of alterations to the Warranted Firestone roof assembly on the above referenced building. Under our current procedures and conditions, all attempts must be made to involve the original installing contractor to make the necessary repairs. Please note that only currently licensed Firestone contractors may perform alterations on Firestone roof systems. All current Firestone details and specifications must be followed.

Firestone will require the following information in order to update an existing Firestone warranted project. In order for the existing warranty to remain in full force, the licensed contractor must submit the following, *in writing*, along with the attached form to:

Firestone Building Products
Attn: Quality Building Services
250 W. 96th St.
Indianapolis, IN 46260

I certify that the following is attached to this document: (please check all boxes)

- Firestone license number and name of contractor to perform work
- Description of work performed (scope of work including details and products used)
- Before and after photos clearly showing scope of work performed*
- Submit all flashing and or other details to be used
- Roof Drawing Indicating location of scope of work

I verify that all information submitted regarding this project is accurate.

Print Name:

Signed:

Date:

A follow-up letter from Firestone is requested (to contractor submitting notice)

Note: All alterations over \$10,000 will require an inspection by a Firestone representative.

Failure to follow the procedures outlined in this document, including not notifying Firestone, may jeopardize the warranty on this project.

Upon successful completion of the content of this form, the existing warranty will remain in full force.

Sincerely,
Firestone Building Products
