## Polyiso Insulation

All Firestone Polyiso insulations have a polyisocyanurate foam core. The standard compressive strength is 20 psi, but 25 psi is also available, upon request. Different facers are used to make specific products, as described below:

Product Name	Top Side		Bottom Side	
ISO 95+	Black Glass Reinforced Mat		Black Glass Reinforced Mat	
HailGard	7/16" Oriented Strand Board		Black Glass Reinforced Mat	
ISO 95+ Woodfiber Composite	1/2" Wood Fiber		Black Glass Reinforced Mat	
Insulation Thickness	Pieces Per Bundle	Square Feet Per Bundle 4x8	Square Feet Per Bundle 4x4	Square Feet Per Truckload
1.00	48	1,536	768	36,864
1.25	38	1,216	608	29,184
1.50	32	1,024	512	24,576
1.75	27	864	432	20,376
2.00	24	768	384	18,432
2.30	20	640	320	15,360
2.50	19	608	304	14,592
2.80	17	544	272	13,056
3.00	16	512	256	12,288
3.25	14	448	224	10,752
3.50	13	416	208	9,984
3.75	12	384	192	9,216
4.00	12	384	192	9,216

## Tapered Polyiso Insulation

Panel Code	Pieces Per Bundle	Square Feet Per Bundle 4x4	Slope	Min - Max Thickness
AA	64	1,024	1/8" Slope	0.5"-1.0"
A	38	608	1/8" Slope	1.0"-1.5"
B	26	416	1/8" Slope	1.5"-2.0"
C	20	320	1/8" Slope	2.0"-2.5"
G	32	512	1/4" Slope	1.0"-2.0"
H	18	288	1/4" Slope	2.0"-3.0"
X	48	768	1/4" Slope	0.5"-1.5"
Y	24	384	1/4" Slope	1.5"-2.5"
Q	32	512	1/2" Slope	0.5"-2.5"

**Note:** The most commonly used tapered panels are listed here. Firestone Tapered ISO 95+ is available in 1/2", 1/4", 1/8" 1/16" and 3/16" slopes per foot and in 4'x 8' panels. For more information, tapered system quotes or design assistance, please contact your Firestone sales representative or the Firestone Tapered Department.

**Firestone Plant Locations:** Colorado, Connecticut, Florida, Kentucky, Pennsylvania, Texas, Wisconsin, and Utah.

## RESISTA™ POLYISO INSULATION

Resista is a closed cell polyisocyanurate foam core, bonded chemically to a heavy duty, dimensionally stable, inorganic glass facer. The standard compressive strength is 20 psi.

Product Name	Top Side		Bottom Side	
RESISTA	Inorganic Double Coated Glass Mat		Inorganic Double Coated Glass Mat	
Insulation Thickness	Pieces Per Bundle	Square Feet Per Bundle 4x8	Square Feet Per Bundle 4x4	Square Feet Per Truckload
1.00*	48	1,536	768	36,864
1.25	38	1,216	608	29,184
1.50*	32	1,024	512	24,576
1.75	27	864	432	20,376
2.00*	24	768	384	18,432
2.30	20	640	320	15,360
2.50*	19	608	304	14,592
2.80	17	544	272	13,056
3.00*	16	512	256	12,288
3.25	14	448	224	10,752
3.50	13	416	208	9,984
3.75	12	384	192	9,216
4.00	12	384	192	9,216

\*Note: 1.0", 1.5", 2.0", 2.5", and 3.0" do not have a minimum bundle requirement.  
For all other thicknesses a minimum 20 bundle order is required.

## RESISTA Tapered Polyiso Insulation

Panel Code	Pieces Per Bundle	Square Feet Per Bundle 4x4	Slope	Min - Max Thickness
AA*	64	1,024	1/8" Slope	0.5"-1.0"
A*	38	608	1/8" Slope	1.0"-1.5"
B	26	416	1/8" Slope	1.5"-2.0"

**Availability:** Firestone FiberTop is manufactured in a number of strategically located facilities in order to provide prompt and efficient delivery throughout the United States.

**Poly Bagging:** All truckloads of FiberTop are shipped without poly bagging. Poly bags are available upon request for an additional charge.

**Wood Fiber Freight Terms**

- Freight allowed on truckload shipments of 1/2" and 1" wood fiber roof insulation for full truckloads only.
- For an additional charge, 1/2" 4' x 8' wood fiber roof insulation is inventoried in some Firestone insulation plants and may be combined with ISO 95+ for prepaid shipments.
- 1" wood fiber roof insulation is not inventoried at any Firestone location and is only shipped in full truckload quantities.
